

3 R

3R PROJECT

The "3R" project is an exciting initiative aimed at improving the care and well-being of inmates in prison systems. By providing EQ training to those who work with inmates, the consortium is working to create a more supportive and empowering environment for both the inmates and the staff.

TRANSNATIONAL PROJECT MANAGEMENT MEETING IN ODENSE DENMARK

On the 30th and 31st of May 2022, the Danish partner-BrainLog, had the pleasure of hosting all 3R project partners in Odense, Denmark, for the two-day 3R Transnational Project Management meeting.

The meeting in Odense was an opportunity for the "3R" project consortium to come together and discuss the progress of Intellectual Output 2, an EQ training program designed to help prison officers, wardens, security officers, and others who are responsible for the care of inmates in the prison system.

The meeting was productive, with the team outlining the next steps in developing the EQ training program.

The team is now focusing on preparing for the training activity that is scheduled to take place in Timisoara (Romania) in September. This will be a crucial milestone in the project development, allowing the consortium to test and refine the EQ training program before its completion in 2023.

Overall, the meeting in Odense was a positive and productive step forward for the "3R" project. The consortium is now focused on the following milestones and is committed to bringing the EQ training program to life in a way that will have a positive impact on the prison system.
